### **Home - MyFlightScope**

Mevo offers the ability to capture and analyze launch data, which is exactly what you'd expect from a launch monitor. That said, it notably lacks the game/skills modes of lower-priced units like Swing Caddie SC200. Frankly, I'm not too concerned about what is an admittedly limited competitive feature set.

### **Tested: FlightScope Mevo Launch Monitor | MyGolfSpy**

Having such state of the art technology being able to fit into your golf trouser pocket makes taking this product onto the golf course or range extremely simple. The Mevo FlightScope model can be combined with the Mevo app for Apple iPhones and a similar android model is soon to be released.

### **FlightScope Mevo Review - Golfshake.com**

Flightscope recommends using the Mevo with 4 to 7 feet of space behind the ball and about 8 feet in front. All of the functions of the Mevo are controlled via the Flightscope app. While it can be tricky to set up your shot using the app, it provides a wealth of helpful shot information once you get it dialed in.
